

**Corporate Finance Programme on Intensive Credit Management
from 17th February to 1st March 2014**

School of Finance conducted a 2 weeks Corporate Finance Programme on Intensive Credit Management for Syndicate Bank Executives from 17th February to 1st March 2014. The guest faculties of IIM and top bankers presented a complete risk analysis of working capital management and project finance through live case studies and described the mitigation techniques. The programme also discussed current issues & challenges in financing to Industry, Infrastructure, Exports, Commercial Real Estate, NBFC and other corporates and how best such situations can be handled satisfactorily. The Interface with Industry generated a lot of interest in understanding the steps taken by the Industry collectively to resolve their problems. The Interface also helped in developing a mutual appreciation of perspective of the Industry and that of the bankers. The Programme received a very good feedback from the participants.
