

### **Corporate Governance Board Leadership Training of Trainers (ToT) program**

The School of Corporate Governance and Public Policy together with the International Finance Corporation (IFC) of the World Bank Group organised Corporate Governance Board Leadership Training of Trainers (ToT) program from May 26-28, 2014 at the Savoy Suites in Manesar.

The objective of the ToT was to develop a pool of trainers that will provide Corporate Governance training and advisory services to Board members and Senior Executives (CEO, CFO and COOs) of individual business enterprises or at board leadership workshops. The delivery of this program was based on a unique participatory learning and leadership approach, facilitated by two international experts.

Participation from academics and corporates added diversity to the program and provided a suitable platform for peer learning.
