- Create awareness among the Governance professionals about the benefits of integrated GRC.
- Imparting knowledge and communicating best practices to GRC professionals.
- Learn global GRC practices and related issues
- Help in developing GRC strategy and align the risk and compliance in context to various organizations

## The Indian Institute of Corporate Affairs

The Indian Institute of Corporate Affairs (IICA) has been established by the Ministry of Corporate Affairs (MCA), Government of India to act as a think-tank and a centre of excellence to support the growth of the corporate sector in India through an integrated and multi-disciplinary approach.

IICA fulfils the training needs of officers of various administrative cadres including the Indian Corporate Law service and officials working across various ministries in government of India. As an MCA think-tank, IICA continues to successfully cater to the needs of large number of CPSE's and private sector companies including MNC's.

The institute has experience training professionals ranging from Board Directors to middle and operational level executives. The expertise of the institute continues to be utilized by corporate India on various issues related to Corporate Affairs and Governance, E-Governance, Corporate Finance, Management, Strategy and Leadership among others.

## **About the IICA School of Corporate Governance & Public Policy**

Corporate Governance is now an integral part of corporations, and with focus shifting from regulation to delivery, it is essential to promote responsible behaviour for shared value creation in society. The School of Corporate Governance & Public Policy has been set up with the vision to provide knowledge and expertise to meet the challenges of inclusive and sustainable corporate operation and growth.

### **Approach and Objective of the School**

To contribute towards better understanding of corporate management and governance issues.

Management expertise is a key requirement for private as well as state owned enterprises, and the School draws upon the management and governance experience of its faculty to create a dynamic system for exchange of ideas and information.

To facilitate global knowledge expertise for local applications, and in turn promote best corporate governance practices from India at the international forum

To create a global network of partnership and linkages with the best of related institutions and organizations both at operational and academic level

To advance and support government bodies, corporate entities and professional through advisory solutions, capacity building programs and specialized training that enable good governance in the operational business

To create an environment for systemic reforms as well as initiate plans and programs for cumulative change within and outside organizations.
