

IICA at UNFPA seminar to explore practices supporting youth & adolescents' rights

The Indian Institute of Corporate Affairs took part in a two day International seminar held at United Nations Conference Building, New York from May 27 to 28, 2014.

The seminar was organised to explore and share promising practices from different countries worldwide that support the rights of adolescents and youth, and to bring together a global network of interested UN entities, organizations, governments and individuals who can be a support network for further knowledge generation and sharing as well as partnership opportunities.

Mr. Nikhil Pant, Chief Programme Executive, National Foundation for CSR, attended the conference and represented IICA at the international seminar. He shared his views on India's experience on addressing marginalized adolescents and youth through public private partnerships as part of CSR.
