

## **Focussed Training Programme for PSU Directors and Senior Officials**

**30<sup>th</sup> Sep-1<sup>st</sup> Oct, 2015, School of Corporate Governance and Public Policy**

The School of Corporate Governance and Public Policy successfully conducted a two-day 'Focussed Training Programme for PSU Directors and Senior Officials', from 30 Sep-01 Oct, 2015 at New Delhi. The programme was organised in collaboration with the International Finance Corporation (IFC) of the World Bank.

The changing economic, social and environmental dynamics impact public sector units in a manner unique from other corporate units and pose new governance challenges for the senior management. These large corporations are not just nation's trustees of wealth but take up mammoth tasks of nation building by balancing business and social goals.

The programme was intensive, where participants discussed real life strategic issues faced by them while at the helm. A total of eight sessions covered the most pertinent areas under corporate governance such as *Board strategy Formulation, Director Duties and liabilities under the Companies Act 2013, Stakeholder Management* and *CSR*. Participants of the programme included a majority of Director level executives and a few General Managers, operating one level below the board. The programme content was well received by the participants. All the participants received joint certification from IICA and IFC on completion of the training.
